

## O'MALLEY WINS ON PUSH-CART JOBS

Succeeds in Insuring Action  
on Salaries for 17 Super-  
visors Costing \$37,920.

## REPUBLICANS IN PROTEST

Tammany Aldermen and Pres-  
ident Get Into Parliamen-  
tary Tangle Over It.

The Board of Aldermen became involved yesterday in a tangle of parliamentary law from which it was extricated only after President Murray Hulbert had sent for "the book," which, in this case consisted of the legislative manual and a copy of the city charter.

Edwin J. O'Malley, Commissioner of Public Markets, appeared in person to urge the passage of an appropriation of \$37,920 for salaries for fifteen pushcart supervisors at \$2,160 a year and two market supervisors at \$2,760 each—items not included in the \$350,000,000 1923 budget.

Pushcart market supervisors heretofore have received a fee of \$1 a week from each peddler in the territory under their supervision. This practice was discontinued after an investigation by the Kings county Grand Jury and Commissioner Hirschfeld, and the Department of Markets was instructed to employ them on a straight salary basis.

President Hulbert referred O'Malley's petition to the finance committee, which meant a delay of several weeks. Mr. O'Malley, who was seated on the dais, whispered in Mr. Hulbert's ear. A Tammany Alderman moved that the petition be withdrawn from the committee and given immediate consideration.

Alderman Bruce M. Falconer, Republican, protested. Three more Tammany members simultaneously offered substitute resolutions. President Hulbert whispered to Mr. O'Malley, he said, pointing his finger at the Commissioner: "I am tired of his constant appearances here. Let us stop being slaves to commissioners." O'Malley had a chance to put these salary requests in the budget, but now he has the nerve to come and ask us for money for 1923.

After consulting the manual the chairman ruled that the petition be taken from the committee and put back on the calendar. It will be acted on at the meeting of the board next week.

## BECKER SENTENCED TO DIE; COUNSEL APPEALS

Wife Slayer Cool at Verdict;  
to Try Norkin on Jan. 8.

Abraham Becker, convicted in the Bronx County Supreme Court last week of the murder of his wife, Jennie, was sentenced by Justice Gibbs yesterday to die in the electric chair at Sing Sing prison during the week beginning February 5. Counsel for Becker gave notice of appeal, which action might give Becker a few months more of life.

While undergoing the ordeal of being sentenced Becker was perfectly cool and showed a smile which seemed cynical. As he was taken from the courtroom he stopped for a moment or two here and there to chat and to shake hands with deputy sheriffs and detectives. Assistant District Attorney Cohn will request the Court of Appeals to expedite action on the hearing of the appeal.

Becker was put in the new death house at Sing Sing.

Reuben Norkin, Becker's accomplice, will be placed on trial on January 8.

## MRS. E. S. HIRSCH FILES PLEA FOR \$50 ALIMONY

Justice Refuses to Hear Oral  
Argument of Lawyers.

Mrs. Edith Stevens Hirsch of 454 West 132d street, who was acquitted in August by a jury before the late Judge Chatfield in Brooklyn of taking part with Anthony Cassese, tobacco merchant, in a conspiracy to bring liquor to the United States from the Bahamas, applied yesterday to Justice Mullin in Supreme Court for \$50 a week alimony and counsel fees pending trial of an action for divorce in which she is defendant. Justice Mullin took the papers without listening to the attorneys, remarking:

"When a woman claims her husband earns \$1,000 a week and he is suing her for divorce and claims that he is living on the charity of his mother, I will hear no oral argument."

## PAINT ON COAL TRAPS MAN SOUGHT AS THIEF

Storekeeper Held as Pur-  
chaser of Stolen Fuel.

Frank Penmore, who has a small store at 91 Fifth street, Long Island City, and who was arrested on a charge of buying coal known to have been stolen, yesterday was held in \$300-bail for trial by Magistrate Kochendorfer in Long Island City Court. Daniel Coughlin, a Long Island Railroad detective, testified that when he questioned a boy he had seen stealing coal from a car in the Long Island yards the boy told him a man on Fifth street had engaged him to let the storekeeper spill white paint on the coal, and later found it in Penmore's store, he said. Penmore said he did not know the coal had been stolen.

The boy, Theodore Darnontons, told the police Penmore paid him 20 cents for the coal. He was sent to the Children's Court.

# Straus Loans in 1922

HERE are pictured a small portion of the buildings securing first mortgage bond issues underwritten by S. W. Straus & Co. in 1922. These loans aggregate a sum of \$124,740,000, and the buildings securing them, located in 35 cities in 19 different states from the Atlantic to the Pacific, represent a large part of the better class of the nation's new building construction in 1922. Of this sum, nearly all represents new construction to relieve the building shortage. None of it represents renewals.

The fact that we are able to purchase and sell so large a volume of investments, at retail, to our own clients, shows that mortgage funds sufficient to relieve the building shortage can readily be raised in the mortgage market without artificial aid, provided—

1. That the mortgage be divided into bonds, which thus can be sold to many individual investors, scattered all over the world;
2. That the loan be amortized or paid down, month by month, from the earnings of the property.

These are two of the fundamental principles of the STRAUS PLAN, originated by us and now widely imitated, which protects every bond we sell and which is responsible for the record of this House—soon to become 41 years without loss to any investor.

We now have on hand, for immediate delivery or January reservation, a wide variety of sound first mortgage serial bonds, safeguarded under the STRAUS PLAN, in \$1000, \$500, and \$100 denominations, netting 6 and 6½%. Included in the list are a number of issues secured by some of the properties here illustrated. We advise immediate action, so as to obtain just the bonds and maturities you most desire, and suggest that you write for
